

SDJC Drives to The Eagle and the Bear

27 SDJC members in 14 cars motored their way from Alpine, through the Mt. Laguna environs ending up at The Eagle and the Bear Restaurant for a leisurely lunch Saturday, April 23rd.

The drive, hosted by Dan Jensen, began in the Starbucks parking lot in Alpine. Most of us were anxious to get a look at Craig and Sue Turner's latest acquisition, a 1967 3.8S (see artsy photo left).

After an interesting departure from the parking lot, the drive went smoothly to our first stop at Lake Cuyamaca where we stretched our legs and socialized.

Craig and Sue in their new 3.8S followed by the Rummell's XK and the Hodge's XF

A long line of Jaguars

The route was beautiful and the weather could not have been nicer. Warm enough for us to put the boot down yet cool enough to keep the older Jags from overheating. After a brief respite, we motored on our final leg to the restaurant.

Joe Harding used the drive as an excellent opportunity to tune the three new Webbers he recently installed on his E-Type. He would race out in front of the rest of us. Later, we would pass him by the side of the road, bonnet up, tweaking and adjusting.

Lined up in front of The Eagle and the Bear

Dan and Jorgene had discovered this restaurant earlier while out on a jaunt of their own and immediately thought of it as a great venue for a Club event. They were right! The fare was tasty and plentiful at this family-owned restaurant and the service was superb! Great work Dan and Jorgene! Thank you for a splendid SDJC outing!!
